EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 8 and 11, the applicant includes the subject matter of substantially all frequencies of the baseband signal, the sum of the power of the transmit signals across the plurality of antenna is equal to a constant. The applicant has overcome the outstanding nonstatutory double patenting rejection by the filing of a terminal disclaimer. Moreover, no new prior art has been discovered that would anticipate or render obvious the claims. Therefor, at the least, the above cited subject matter, when considered with the additional subject matter of the claim, comprises a unique combination of elements that is neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
